Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I like this article. In the discussion part, all the pros and cons of different methods of proceeding are discussed. Prosthetics, transplants or implantology (for and against) As it should be in good scientific work	
Minor REVISION comments	<p>Introduction maybe it would be good to expand a little part of the introduction, so as to show the history of research of this disease, for example in the article Ghost teeth: Regional odontodysplasia of maxillary first molar associated with eruption disorders in a 10-year-old girl - PMC (nih.gov)</p> <p>what are the possibilities of testing this type of disease</p> <p>https://www.aapd.org/globalassets/media/publications/archives/cahuana-27-1.pdf</p> <p>https://www.hindawi.com/journals/crid/2013/519704/</p> <p>Treatment Secondly, an alginate impression was taken for the mandibular arch, followed by a special tray fabrication, border-moulding was done, followed by a pickup impression, then a distal extended acrylic partial denture was made with heat cure acrylic- please add more info about producer of the materials used for this treatment (name, country).</p> <p>References Goyal A, Gupta S, Gojanur S et al. Regional Odontodysplasia: An Enigmatic Rarity of Primary and Permanent Dentition. University J Dent Scie 2019; Vol. 5, Issue 3- pages missing</p> <p>3. Ana carolina magalhães, juliano pelim pissan, robson frederico cunha, et al Regional odontodysplasia: case report. J appl oral sci. 2007;15(6):465-9.</p> <p>4. P. J. Slootweg and P. R. M. Meuwissen, "Regional odontodysplasia in epidermal nevus syndrome," Journal of Oral Pathology, vol. 14, no. 3, pp. 256–262, 1985</p> <p>Please correct the literature and use one way of citing, but the same in all publications. If the books are cited pages that relate to Odontodysplasia have to be added.</p>	
Optional/General comments	This is missing at the end of the article, please add that the authors do not have any conflict of interest, etc., about the sources of research funding.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
