General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	None	
Minor REVISION comments	Proofreading for typos. Here are some examples: Evidence is obvious that perineal injury can mostly result to chronic complications Evidence have shown that majority of women suffer maltreatment during the time of delivery their indiscriminate y use of episiotomy and inadequate training on perineal care exposes their clients in labour to sustaining unwarranted perineal trauma	
Optional/General comments	The author should consider reducing the length of the manuscript. For instance, the abstract could be summarized to between 150 and 250 words	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
