General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijrrgy.com/index.php/IJRRGY/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	A good research but following points need addressing: 1. The exclusion and inclusion criteria could be elaborated. 2. The demographic and the data related to pregnancy(parity, gestational age etc) and other parameters should be tabulated 3. If MRI Is the imaging modality of choice in PRES why was a CT scan done in the first place?	
Minor REVISION comments	1. Does the limit on results mean range? 2. Were some patients referred from outside hospitals or all were from the hospital's in house department?	
Optional/General comments		

Review Form 1.6
