Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction: Para 1: The terminology of MPMN was quoted from a research published in 2005. Please provide the latest journal using similar terminology (preferably recent year). .</p> <p>Case presentation: Please describe relevant clinical history including any risk factors to suggest familial disease/mutation, obesity, parity etc.. Please describe the histopathological findings of breast carcinoma Please describe the histopathological findings of SLL.</p>	
Minor REVISION comments	<p>Introduction: Para 1: MPMs instead of MPMNs were used. Para 2: "concurrent presentation of multiple primary neoplasms is a rare occurrence." redundant with sentence in para 1 "Despite its increasing rates, MPMs remain rare."</p> <p>Case presentation: Para1:"Wide local excision was done outside Misurata Cancer Center, histopathology report showed invasive ductal carcinoma of the breast with positive resection line," 1. Please don't mention the center if it is not relevant. 2. Please put "." instead of "," at the end of the sentence. Para 2: "Then this patient was transferred and admitted to Surgery department, Misurata Cancer Center." 1. Please don't mention the center if it is not relevant. 2. Suggest removing the sentence if not relevant. Para 3: "Multidisciplinary Team..". Please don't include the person and the process of giving decision, unless relevant Para 4: What is the white cell count? Why did the physician miss the findings? Para 5: Lymphocytosis. What was theWBC level? Para 6: What type of adjuvant chemotherapy was given? Why do you use "neoadjuvant chemotherapy" instead of "chemotherapy" only? How can the surgeon remove the uterus based on Pap Smear report? What is Pap-IV adenocarcinoma? Why do you use "high" differentiated" instead of "well differentiated"? Para 7: What is the adjuvant treatment? Please elaborate.</p> <p>Discussion: Good discussion. Should discuss more on the pathogenesis and genetic part of breast and endometrial cancer.</p> <p>Figure: Fig 1, 2 and 3: Where is the description of the HPE image?</p>	
Optional/General comments
