Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	First of all, I would like to congratulate you on the much-needed initiative with this topic of great educational relevance, explored in this study. I also congratulate you for all your care and competence in the presentation of your analysis and the data collected, discussion of the findings, and reported outcomes.	
<b>Minor</b> REVISION comments	I have two considerations the first one, the exclusion criterion was not clear, because the inclusion criterion includes pregnant women who agree with the work, so the consideration pointed out in the paper is not included in the exclusion and a second consideration, if you think it is appropriate, it is to leave implicit in the method the location -Port Harcourt- that will only appear in the discussion and in the conclusion, before that the work only mentions the university hospital	
<b>Optional/General</b> comments		

**Review Form 1.6**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

**Reviewer Details:**
