PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This study investigated the importance of physical activity in diabetic patients. The willingness to exercise is necessary, and the results seem to provide clues for intervention. However, the study period was also during the COVID-19 pandemic, which may have limited access to exercise. This point needs to be addressed in the discussion.	
Minor REVISION comments
