

Review Form 1.6

| | |
|--------------------------|---|
| Journal Name: | International Journal of TROPICAL DISEASE & Health |
| Manuscript Number: | Ms_IJTDH_87370 |
| Title of the Manuscript: | The effects of methanolic plant extract on the haematological indices of induced preeclamptic Wistar rats |
| Type of the Article | Original Research Article |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | | |
| Minor REVISION comments | | |
| Optional/General comments | the study showed that extracts of the various plants at different degree caused increases in PCV and as such could be used in the management of anemia. There capability to improve platelet counts means at different levels also implied that they could be employed in the management of thrombocytopenia. With increases in the white cell counts, the extracts can be useful in improving immunity responses. On the whole the MS is found to be significant and hence accepted for publication. | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
