Type of the Article	Systematic Review

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Authors described a neglected tropical disease caused by free living amoebas. They conducted a systematic review which presented in straight forward way, and still adding some novelty to the initial ideas. This type of writing is very important and must be encouraged, especially to those expert in the field of tropical medicine, in order to increase awareness. Only need very minor correction (spelling)	
Minor REVISION comments	Only need very minor correction (spelling)	
Optional/General comments	I encourage the authors to write more manuscript in their relevant expertise (in the future).	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
