

## Review Form 1.6

Journal Name:	<a href="#">International Neuropsychiatric Disease Journal</a>
Manuscript Number:	Ms_INDJ_83544
Title of the Manuscript:	Lifestyles and their Influence on Sleep Disorders
Type of the Article	Minireview Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalindj.com/index.php/INDJ/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Manuscript main text is too short. Authors used more than 100 papers for reference and prepared inadequately short review. According to the Authors guidelines minireview should have 3000-6000 words, yours have 2000. I suggest slight extension.</p> <p>I would add skin diseases to chronic diseases that are mentioned to affect sleep. You could cite for instance : DOI: 10.3389/fpsyt.2021.674460. There is also an interesting information on how sleep disorders affect human fertility. Chronic dermatoses are a major problem in regard to induction of sleep disorders.</p>	
<b>Minor</b> REVISION comments	<p>English needs improvement.</p> <p>In the section 'smoking' there is a mistake in the second sentence: smoking is associated with smoking. I suppose it should be sleep disorders. Please correct.</p> <p>BMI value should not be presented with units, just the number.</p>	
<b>Optional/General</b> comments	<p>Some expressions are not exactly medical/scientific.</p> <p>I suggest acceptance after improvements .</p>
