General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalindj.com/index.php/INDJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Accept as it is	
Minor REVISION comments		
Optional/General comments	The Manuscript deserves to be published not only because it talks about the current topic of the COVID-19 pandemic, but also because it points to important problems of media influence on the perspective of Covid-19. The results of the study can help for further research in order to reduce the fear among citizens regarding not just the Corona virus, but all future pandemics as well. Trough this study we can also conclude that an excess of information can lead to fearmongering amongst the general public. The author states that they have received ethical approval, however i have not received the approval. As a result i must trust the study was conducted with approval.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
