PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This article seems very interesting to me. A rare case of Ewing's sarcoma in a young female has been reported, which is a very rare case. The article is beautifully and concisely written with sufficient accompanying images (pathohistological, etc.). A review of the literature is also presented, which makes the article even more valuable. I think the article should be published.	
Minor REVISION comments	Maybe the introduction should be longer but that's my subjective feeling of course. Since there is enough text written in the discussion, maybe something from the discussion can be returned to the introduction.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
