### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Authors declare Ethics Approval and Consent to Participate as NOT APPLICABLE. It is suggested to mention why such details are Not Applicable as the spectrofluorimetric approach has been created for test of sulfur-containing drug; ixabepilone in bulk powder, vials and <u>human plasma</u>.</p> <p>Suggest to incorporate the following details:            How many volunteers participated, if it is a single participant then a justification for sample size considered to be provided?            How many samples were collected from each volunteer?            Is the sample collection in fasting or fed state?            Where (institute name) and when (dates) was the study executed/done?</p>	
<b>Minor</b> REVISION comments	<p>There are many spelling errors example continuous in miss spelled, similarly few words like results, sensitivity, etc.</p>	
<b>Optional/General</b> comments	<p>Only few terms have been abbreviated, suggest to give full form of all the abbreviated terms at their first appearance OR a separate section on Abbreviations is suggested.</p>
