

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	Ms_JABB_68627
Title of the Manuscript:	Ecological Adaptation of Endemic Anthocliesta Species under Moisture Gradient in Parts of Niger Delta, Nigeria
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
This article is an original study and does not require revision.		
<b>Compulsory</b> REVISION comments	-	-
<b>Minor</b> REVISION comments	This study is an original study conducted to determine the effects of moisture on plant anatomy of Anthocliesta species in Niger delta. Abstract, introduction, material method, discussion and conclusion parts are written appropriately. Only one literature is not used in the text. I marked this literature on the text. I think your article can be published in this magazine if you fix it.-	-
<b>Optional/General</b> comments	This study was carried out to reveal how this plant adapts to the environment, considering the anatomical structure of Anthocleista species Anthocleista (A. djalonesis A. Chev; A. liebrechtsiana De Wild & Th.Dur; A. nobilis G.Don; and A genus. The method used, discussion and conclusion parts were written in harmony with each other. In the discussion part, comparisons were made with the literature data.
