General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Revision required for introduction part as it is lacking the essential components. Reference not added for identification part of methodology. Scientific names should be either underlined or italicized. References cited in Bibliography have to be restructured since the most of the ones cited in the text are not found in it like that cited in the bibliography part are not in the text also.	
Minor REVISION comments	Graphical diagrams can be included. Map of the study area to state the location can be added.	
Optional/General comments	Abstract part can be modified. Study seems to be so simple.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
