<b>Compulsory</b> REVISION comments	<p>The authors are trying to describe the agrosystem effect on the mycorrhizal diversity around plantain banana in Kisangani. The findings are important in agricultural science, but this study will be improved by following key suggestions:</p> <ol style="list-style-type: none"><li>1. In the abstract, the authors should provide a concise sentence of 1 or 2 lines to introduce the types of agrosystems and diversity of plantain bananas. It also includes the aim of the study with future prospects of the results.</li><li>2. The authors need to improve the introduction by citing the previous findings on different agrosystem effects on AMF and soil physico-properties.</li><li>3. The authors need to improve the sense of sentences in results and discussion.</li><li>4. The caption of the figure writes as per the journal guidelines and does not practice overlapping the name on the figure as F2 in fig.1.</li><li>5.
