PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Th current paper has been drafted poorly and it seems that author is not much familiar with the art of writing paper. Even review part has also been included in the paper. Every part of the paper is not well written, language used also is very very ordinary. Conclusion should be written separately. In nut shell this paper should be redrafted otherwise it will harm the quality of the Journal. Even scientific name not written in italics. So I recommend for a major revision for this article	
Minor REVISION comments
