

Review Form 1.6

Journal Name:	Journal of Applied Life Sciences International
Manuscript Number:	Ms_JALSI_76155
Title of the Manuscript:	Effects of diclofenac on the oxidative stress parameters of freshwater fish <i>Oreochromis niloticus</i>
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. Too many references. It is recommended to focus on relevant references only.2. No diagram included. Diagrams should be included to gain a clearer understanding.3. The introduction section is too long. Keep it short to one page only.4. Not clear and insufficient explanation about diclofenac, oxidative stress parameters, and freshwater fish.5. Please show/illustrate the experimental test rig with briefly explanation.6. How the values in Table 1, Table 2 and Table 3 are obtained. Explain the method used. Also include mathematical equations related to the subject matter.7. The topic of discussion should be related to the results of the study and based on mathematical equations.	
Minor REVISION comments		
Optional/General comments	<ol style="list-style-type: none">1. The results of the study are proposed to be presented graphically
