

Review Form 1.6

Journal Name:	Journal of Applied Life Sciences International
Manuscript Number:	Ms_JALSI_77535
Title of the Manuscript:	Haematology of Birds and Microbial Analysis of Recycled Poultry Litter Treated with Graded Levels of Aluminium Sulphate (Alum)
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The topic is very interesting but add some justification why the researcher want to do this research in the introduction section. Some issues to be corrected as I indicated in main manuscript Follow the journal author guideline for citing and reference style including the structure of the manuscript In discussion part, need strong comparison with others related work but I didn't see such....	
Optional/General comments	Why you select the Alum to analyse the microbial load of poultry litter and how to determine the level of alum. Please indicate under your material and method section See the main manuscript, I wrote my comment on it	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
