Manuscript Number:	Ms_JALSI_88886
Title of the Manuscript:	Fusion Assessment in Stand Alone Oblique lumbar interbody fusion in Adult Degenerative Lumbar Scoliosis
Type of the Article	Cases report

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljalsi.com/index.php/JALSI/editorial-policy>)

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments I think it is an excellent job. However, I am not the best person to review it.	It is a serial of cases report (30) of neurosurgical management of a neurodegenerative spine problem. My field is Neurology and although it is a region that we also manage, this study is totally focused on neurosurgical part and should be reviewed by a neurosurgeon.	
Minor REVISION comments It is necessary to include an explanation of the abbreviations used in the abstract.	it is impossible for those of us who do not know the terms to understand them, and this part is the first to be read. For those of us who do not know the terms is impossible to understand them, and this is the first part to be read.	
Optional/General comments I recommend to ask for a better opinion.		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
