PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I congratulate you on the excellent manuscript, very technical, with a rich material and methods. I am only concerned about stating by morphological characteristics that the yeast in palm wine is <i>S. cerevisiae</i> , I think that this statement is only valid with molecular or genetic analysis, so I suggest that the term palm wine yeast be used, even for value new research to support and validate its use as an alternative to imported yeast.	
Minor REVISION comments	I suggest using the term palm wine yeast	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
