PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Review all the lack of space between words, there are a lot in all the text.	
Minor REVISION comments	<p>Line 106: Hektoen media was wrong spelling Line 142: twice was wrong spelling Please put the city, state and country of the sample collection. Describe better the FDA guideline. Why you use 28°C in the tests, if the bacteria was isolated in 37°C? Table 3: only 2 lowest results were in evidence, em time 48 and 72, the other times were not important? Why they are no bold and italic. Line 366: what is a "serovars"?</p> <p>Explore more the findings in the conclusion.</p>	
Optional/General comments	None
