Manuscript Number:	Ms_JAMB_83273
Title of the Manuscript:	MICROBIAL CHANGES DURING THE FERMENTATION OF AERIAL POTATO (DISCOREA BULBIFERA LINN)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamb.com/index.php/JAMB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The results are duly discussed, the discussion is coherent, current and dialogues with the proposed objectives and the obtained results. But I suggest that more previous studies be cited, as many as possible, that can corroborate the presented results, which can make the conclusion even more acceptable and that highlights the main idea.	
Minor REVISION comments	In the conclusion, resume what was said to show and reinforce how your arguments are capable of composing the proposed solution.	
Optional/General comments	The introduction clearly presents the context and objective of the study carried out. The article presents adequacy regarding the methodology used. The research results presented in text and tables are coherently related to the objectives.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
