

## Review Form 1.6

Journal Name:	<a href="#">Journal of Advances in Microbiology</a>
Manuscript Number:	Ms_JAMB_85713
Title of the Manuscript:	ISOLATION AND CHARACTERIZATION OF GLYPHOSATE DEGRADING BACTERIA FROM KUBAU LOCAL GOVT. AREA, KADUNA STATE
Type of the Article	<a href="#">Original Article</a>

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamb.com/index.php/JAMB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>-You say that «The results from bootstrap analysis of the partial 16S rRNA is consistent with the biochemical properties and morphological results (see Table 1). Therefore, the isolated strain BBDD3 and BBDD4 were identified as <i>Escherichia coli</i> 0157:H7 str. Sakai DNA and <i>Sporanaerobacter acetigenes</i> DSM13106».</p> <p>For a good understanding, you must correct in table 1, the identity of the strains BBDD3 and BBDD4.</p> <p>- Strains BBDD3 and BBDD4 were the only bacteria isolated in this study? If not, what other species of bacteria have you isolated from your soil samples.</p>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
