PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | The content of this paper is quite sufficient as a whole, and the author has done some preparations and work on this topic. The whole structure and logic of this paper are quite good. The Materials and Methods section provides sufficient information. Meanwhile, the detailed discussion is given. But there are still some little problems in the paper. The author is suggested to make some revisions so that the paper will be better :- <ol style="list-style-type: none">1. In title section , please use few words and italics form for scientific names in a whole of the paper2. In introduction section, please use standard space between words and lines in a whole of the paper.3. In the results section separate the pictures of compounds chromatograms and antimicrobial pictures then numbering it.4. Based on the publishing standards, the picture of chromatogram should be clear.5. Organize the references and justify. | |
| Minor REVISION comments | Please use standard space between lines, words, figures and tables in a whole of the paper | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|---|---|
| Are there ethical issues in this manuscript? | (If yes, Kindly please write down the ethical issues here in details) | |
