

Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_88715
Title of the Manuscript:	Modelling the impact of an effective mass media awareness campaigns on the spread of HPV infections
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljamcs.com/index.php/JAMCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1- In paragraph 3.1 remove the parenthesis in the equation Where $N = (S + S_a + I + I_a + V + V_a + T)$ 2- In the paragraph 3.2 :- you forget to put "{" : let $\Omega_2 = \{ (S, S_a, I, I_a, V, V_a, T) \}$ - you forget to put the parenthesis in : then the solution set $\{S, S_a, I, I_a, V, V_a, T\}$ -replace by- $\{(S, S_a, I, I_a, V, V_a, T)\}$ - In the equations (7), (8) and (10) in second member of these equations there is no variable "S" because you already separate the variable. Put "t" in the place of "S". 3- In the paragraph 3.3 : Put $H^0 = (S^0, \dots)$ in the place of $H^0 = \{S^0, \dots\}$ 4- In the paragraph 3.5: you have mixed two things definition and theorem. You have to do at the first time the definition of your Lyapunov function after stating the theorem 5- Talk about the outlook of your research at the end of the conclusion	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
