PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The authors can discuss about the unusual happening of x-ray missing a foreign body of around 2 mm. Usually, it is only foreign bodies smaller than 1 mm (especially glass, which are missed). Reference: Campbell EA, Wilbert CD. Foreign body imaging. Statpearls Publishing. {Available on PubMed}</p> <p>The authors can also take a look at this article: Mete G, Turgut Y et al. Anterior segment intraocular metallic foreign body causing chronic hypopyon uveitis. Journal of ophthalmic inflammation and infection. 2011;1:85-87.</p> <p>Other imaging technologies which can be used in such cases, for example, anterior segment OCT and ultrasound biomicroscopy can also be mentioned.</p>	
Minor REVISION comments	Keywords should be from MeSH [PubMed].	
Optional/General comments	Language can be improved.	

Review Form 1.6
