General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The abstract does not reflect study objective, methods, results, conclusion. Methods section is uncompleted. Ethic considerations are absent. Results section is very uncompleted; need to give study group characteristics like gender, average age, weight, etc.	
Minor REVISION comments	The title should say the study method. Corrected in the text. WHO defines children from 0 to 9 years, adolescents 10-19 years. The abstract should not have any references. References numbers must appear in numeric order and not repeated Abbreviations must be all written down the first time they appear in the text.	
Optional/General comments	Some proposed corrections are in red in the text.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> There are no ethical considerations (informed consent term, Helsinki declaration, etc); those should be mentioned.
