

## Review Form 1.6

Journal Name:	<a href="#">Journal of Advances in Medicine and Medical Research</a>
Manuscript Number:	Ms_JAMMR_77955
Title of the Manuscript:	Mycology of Otomycosis in Port Harcourt
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

**Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>#Disclosure</b> 1. The authors should declare that they have no other funding, financial relationships, or conflicts of interest to disclose. All authors are asked to disclose potential conflicts of interest that could impact the credibility of work. Please see the author's guideline for Journal of Advances in Medicine and Medical Research. (Link: <a href="https://www.journaljammr.com/index.php/JAMMR/about/submissions">https://www.journaljammr.com/index.php/JAMMR/about/submissions</a>)</p> <p><b>#Abstract</b> 1. Different sub-sections should be used. The authors have to follow the author's guideline for Journal of Advances in Medicine and Medical Research. (Link: <a href="https://www.journaljammr.com/index.php/JAMMR/about/submissions">https://www.journaljammr.com/index.php/JAMMR/about/submissions</a>)</p>	
<b>Minor</b> REVISION comments	<p><b>#Figure legends</b> 1. Page 4, figure 1. "Fig 1. Gender distribution among subjects with otomycosis" in the figure. The authors should follow the author's guideline for Journal of Advances in Medicine and Medical Research. (Link: <a href="https://www.journaljammr.com/index.php/JAMMR/about/submissions">https://www.journaljammr.com/index.php/JAMMR/about/submissions</a>) Figure legends should be given below the figures.</p> <p><b>#Discussion</b> 1. Page 6, paragraph 1, line 3. "the p- value was 0.244 and 1.00." It is necessary that the authors follow the author's guideline for Journal of Advances in Medicine and Medical Research. (Link: <a href="https://www.journaljammr.com/index.php/JAMMR/about/submissions">https://www.journaljammr.com/index.php/JAMMR/about/submissions</a>) <i>P</i> is always italicized and capitalized. And, the <i>P</i> value should be expressed to 2 digits whether or not it is significant. If <math>P &lt; .01</math>, it should be expressed to 3 digits.</p>	
<b>Optional/General</b> comments	<p>1. The information in this manuscript consistent with the journal's mission and relevant to the readership. This manuscript can keep it's article type of 'original research' as case-control studies with planned data collection.</p> <p>2. Aims are stated clearly in the abstract and introduction. And the objectives, study design, methodology, sample size are appropriate.</p> <p>3. The study sample was chosen appropriately and described in adequate detail for the results to be generalized.</p> <p>4. Level of evidence is determined as level no. 2; Prospective (cohort) study with internal control group.</p> <p>5. The authors mention that individuals who did not give consent were excluded from the study. However, they did not declare that they have no other funding, financial relationships, or conflicts of interest to disclose.</p> <p>6. I am not unsure whether the statistics are sound. Please call a biostatistician.</p> <p>7. This paper reports exciting results and with a few amendments.</p>
