General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Mention the need of the study in the abstract: Though autonomy and decision-making is shown but frame it a way that it is comprehensible for the readers to understand the need of the study 2. In discussion- Reorder the paragraphs- highlighting the challenges /factors influencing the study parameter followed by the observations made through the study and how it can be overcome 	
Minor REVISION comments	In introduction there is more of historical information. It is informative but please keep it more concise and focus on your reviews and comments on the present observations that has been made in the study	
Optional/General comments	The review report is novel. The emphasis on the importance of ethics & communication is a good concept. But make it explicit with slight changes that need to be made in the script in order to reach out to more researchers for their reference and better understanding
