Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The title needs to be corrected by changing the word "Diabetic Mother" The word "Diabetic" is discriminatory and should be avoided in journal publication.</p> <p>This word should be replaced by "mothers with diabetes" This should be applied to all the text where "Diabetic" is used in this article.</p> <p>Abstract Section: This is a quantitative analysis; the results should include the values such as p-values and confidence intervals. That is display the results briefly within the text.</p> <p>Patients and methods should be replaced with Participants and Methods.</p> <p>Results Section: Linear regression graphics need to be displayed between echocardiographic data and various clinical data with interpretation.</p> <p>HbA1c was significantly higher in groups with diabetes as compared to the control group (please insert $p < 0.05$ and mention mean values of HbA1c in groups with diabetes with the control group).</p> <p>The following statement made by the authors is incorrect and needs to be corrected.</p> <p>"IVS thickness had a significant correlation with HbA1c, FBS and 2 HPP ($P < 0.05$)"</p> <p>The statement should be written as follows:</p> <p>IVS thickness had a moderate correlation with HbA1c ($r = 0.53$) and with FBS ($r = 0.44$) and poor correlation with 2 HPP ($r = 0.28$). However, these correlations were statistically significant ($p < 0.05$).</p>	
Minor REVISION comments	Please provide ethics committee approval number and dates.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
