PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory REVISION comments</u>	<p>The authors present here the results of their work on "Comparative Study of the Incidence of Co-Infection of Soil-Transmitted Helminths and Helicobacter pylori among Children and Women of Reproductive Age Living in Slum Settlements in Rivers State". We believe that the results are original. They have also used appropriate techniques for parasitological testing. The authors should present a map of the study area and specify the country of origin of the study area. However, they need to better argue the discussion part of their work.</p>	
<u>Minor REVISION comments</u>	<p>The authors need to put the map of the study area. There are some revision/corrections in the text that the authors must correct.</p>	
<u>Optional/General comments</u>	<p>The article is complete, well written and contains quantitatively and qualitatively original and important scientific elements that can be published. But the authors need integrate all my suggestions.</p>
