PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The title of this report should be recasted: Sacro-coccygeal teratoma in a 5-year-old girl: A case report of late presentation. 2. There were too many spelling errors, most are highlighted in the main text. Red colours should be deleted and replace with green colours. 3. Some of the electrolyte & investigation results have no units. 4. Author(s) should re-write the manuscript to conforms with guidelines of writing a case report of this esteem journal. 5. Though the abstract should not be structured but written has to be written in format of: background, objectives, case summary and conclusion. 6. The main body should be structured as: Introduction, case report which should also be paragraphed as historic presentation, physical examination, investigation(s), treatment and outcome. 7. No image was presented at all, not to talk of histologic slide of the tumour after surgery, this will definitely add value to the report 8. The discussion is rather too short and significant portion of the conclusion should be part of the discussion, moreover, that is not how discussion is done, the whole should be recasted. 	
Minor REVISION comments	Author(s) should conform to one type of spelling, there were mixture of American and British way of spelling e.g., Tumor and tumour	
Optional/General comments	Ethical review number should be volunteered, Conflict of interest among authors should also be declared
