

## Review Form 1.6

Journal Name:	<a href="#">Journal of Advances in Medicine and Medical Research</a>
Manuscript Number:	Ms_JAMMR_79993
Title of the Manuscript:	Demographic and Serum Alanine Aminotransferase pattern of primary Health Care Workers positive for Hepatitis B Surface Antigen and Hepatitis C Virus in Cross River North, Nigeria
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljammr.com/index.php/JAMMR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<ul style="list-style-type: none"> <li>No line and page numbers; thus, impossible for comments</li> <li>Keywords: Hepatitis, Virus, Health, worker, Aminotransferase and vaccinated =&gt; Correct as "Keywords: Hepatitis Virus, Health worker, Aminotransferase and vaccination</li> <li>Figures 1 and 2 are not clearly showing the difference. Use visible colours for negatives and positives</li> <li>Change the punctuations i.e. use colon instead of semicolon.</li> <li>Tables; Attitude-----correct as Tables: Attitude</li> <li>Serology tests;-----correct as Serology tests:</li> <li>In methodology part, no headings for wide portion above; but at the end the author wrote as 2.1 statistical method----Give clear headings for above parts, too.</li> <li>Write the results in simple past. Eg health workers are observed-----should be written as workers were observed.... and others throughout</li> <li>Use one font only. Up to conclusion, the author used Calibri and references written by Times New Roman. Make uniform font and size.</li> </ul>	
<b>Optional/General</b> comments	<ul style="list-style-type: none"> <li>the paper is more attractive if map of the study sites is added</li> <li>Throughout the paper, check double referencing. eg Imoru et al. [31]. The author placed author of another study and also the reference in square bracket. I suggest, write as a study carried out in somewhere else [reference].</li> </ul>
