This statement in discussion, "In this study, the patients` histopathology did not do as well as the COVID-19 in the placental segments was not studied. Public Health Emergency should be written as public health emergency</p> <p>-Five days "ago" instead of five days "back"</p> <p>- "Labor" instead of "Labour"</p> <p>- 'Not having proper guidelines' instead of "not having a proper guideline"</p> |   |
