

Review Form 1.6

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_82243
Title of the Manuscript:	Urinary CD80 and Serum Soluble Urokinase Plasminogen Activator Receptor (SuPAR) as Novel Diagnostic Biomarkers in Pediatric Patients with Nephrotic Syndrome
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - Please state and describe who are in Group C in the abstract and in methodology - Kindly proofread this manuscript as there are a few typographical and grammatical Errors Also please standardise acronyms eg uCD80 vs urinary CD80 - Please standardise the usage of idiopathic or primary nephrotic syndrome - How is minimal change disease diagnosed? Is it confirmed via IF and EM studies? Please state how diagnosis is arrived - Diffuse mesangial proliferative GN and focal global, segmental glomerulosclerosis is a pattern but what is the aetiology? - eg IgA nephropathy (IgAN), IgM nephropathy (IgMN), lupus nephritis (LN), C1q nephropathy (C1qN) and other entities. It would be good to include representative images of these histopathological entities - In the discussion section, author mainly compare and contrast results of this study With other studies. Only very superficially that in depth discussion were made to the reasons Why this could possibly be so. - Study could also do serum in addition to urinary CD80 and SuPAR - References – generally within last 10 years but also there are older journals being referenced. Please cite more of recent publications ie less than 5 years especially as you said many studies Had been done of these 2 biomarkers. 	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
