PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The shigella was mentioned in the title of the research, but it was not referred to in the materials and methods , results and discussion. I suggest removing it from the title. Has it been studied? If you do not study, delete it, but if you study it , remember the results even if they are zero. 2. The sequence of references in the list of references should be according to the sequence mentioned in the body of the research. 3. References should be made to the references on which he relied in isolation and identification (materials & methods). 	
Minor REVISION comments	Make the corrections installed in the search .	
Optional/General comments	Reorganization of the manuscript.	

Review Form 1.6
