Compulsory REVISION comments	<p>Accept with minor essential comments</p> <p>The authors provide an interesting presentation for different groups of physicians in the implementation of relevant protocols and guidelines where applicability is lower among physicians who have the largest number of patients during working hours.</p> <p>I think this original research article would be more complete if there were also a group of field control specialist doctors.</p> <p>Congratulating the authors on their work, I would suggest a shorter title for example: "Implementation of guidelines in the management of hypertension by primary care physicians in family health facilities, Tanta Gharbia"</p>
