Compulsory REVISION comments	<p>The word „injury“ is misused in many places in the text. It should be clarified that these are malignant stenoses, not benign pathology!</p> <p>The results do not describe the pathology of the 80 patients (cholangiocarcinoma, pancreatic cancer, periampullary tumors?!?).</p>	
Minor REVISION comments	In table one, frequency is written instead of the number of patients.	
Optional/General comments	A nice and well-structured article that can be published after the corrections I mentioned above.
