Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Introduction- summarize the introduction in 4-5 paragraph= avoid literature review and focus on the general background of the problem, state the problem and show the significant of the study Based on this study, what is the incidence of mortality???</p> <p>Table 2 -put two by two table before sig and after categories</p> <p>Discussion- the author should discuss the finding in detail</p> <p>Incidence of death and each variable which are significantly associated with mortality should be discussed independently in different paragraph and justification of the reason should be explain</p>	
Minor REVISION comments	<p>Title- correct it as "Determinants of Child Survival in South-west Nigeria, year???"</p> <p>Abstract- avoid abbreviation What is the difference between literate and educated or non-literate and uneducated???</p> <p>METHODOLOGY- the study area is not well described. For the better understanding of the reader, the author needs to describe the study area in detail.</p> <p>Randomized cluster sampling is sampling technique not study design.so the author should state what is the study design for this study</p> <p>Sampling size determination- Why is 50%. The author put different finding in the introduction part like Nigerian DHS, IGME, 2021</p> <p>Data collection procedure: describe it briefly</p> <p>Data analysis- Briefly describe this how variable was selected to enter into multivariable, how confounding factors were controlled and how mode fitness was checked????</p>	
Optional/General comments	<p>Factors influencing the survival of under-five children in the selected LGAs- explanation of the significant variables. I didn't see acknowledgment</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i><u>(If yes, Kindly please write down the ethical issues here in details)</u></i>
