PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The author should explain "when to consider the presence of fibrosis" regarding the time limit and the radiological findings. Shall we consider the following radiological findings as fibrosis or residual radiological findings; consolidation, ground glass opacification, and cavity formation. Shall we consider any radiological findings as fibrosis after 1 or 3 months only.	
Minor REVISION comments	It is better to remove the columns of mild cases from graph 1 &2 as by definition, there is no radiological findings.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
