PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1-Title is better to be changed. The expression (Diagnostic Study) is not suitable. 2- The author compered between the biomarkers regarding (specificity and sensitivity); but did not show how they were calculated. 3- I added other observations labelled with yellow or pink accompanied by the link of comment (a square) within the text to be revised and corrected by the author.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
