

## Review Form 1.6

Journal Name:	<a href="#">Journal of Advances in Medical and Pharmaceutical Sciences</a>
Manuscript Number:	Ms_JAMPS_88096
Title of the Manuscript:	ILEUM HISTOARCHITECTURE FOLLOWING ASPARTAME CONSUMPTION: ASSESSMENT OF ACTIONS OF MORINGA OLEIFERA SEED EXTRACT
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamps.com/index.php/JAMPS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"><li>1. Addition of theory or research results should consider the year of publication (using a minimum of 5 years of reference sources from 2018)</li><li>2. It is necessary to apply for ethical permission to the ethics committee so that there is evidence that the research conducted does not violate ethics and avoids conflicts of interest because the research uses animal subjects (Wistar rats) and to avoid conflicts of interest so it is necessary to pay attention to aspects of research ethics.</li><li>3. In the article it is necessary to add conclusions and suggestions</li></ol>	
<b>Minor</b> REVISION comments	In the discussion or discussion section, it is necessary to explain one by one from the research results obtained and use new references (at least 5 years from 2018) so that conclusions and suggestions can be drawn in this study.	
<b>Optional/General</b> comments	It is necessary to conduct an ethical test and write down where to conduct the ethical test with a certificate number related to the living creatures (tested animals) involved in this research.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p><u>(If yes, Kindly please write down the ethical issues here in details)</u></p> <p>Yes, it is suspected that there is an ethical problem so there is a need for evidence that the research conducted does not violate ethics to protect the subject (tested animals) and avoid conflicts of interest, namely by writing down the ethical pass certificate number that has been issued by the relevant agency.</p>
