**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Interesting paper looking at supraorbital endoscopic approach for middle fossa tumors. Overall the authors present several interesting cases with good overall outcomes. The paper would greatly benefit from discussion regarding the utility of the expanded endonasal and transorbital approach for these lesions PMID: 28593110. If this is addressed and reference included, paper could be interest to the readership.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
