General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljeai.com/index.php/JEAI/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1- In the practical part of the Abstract, only seven studied parameters was mentioned. While it becomes clear by reading the research that there are more than ten indicators. They must be mentioned in the practical part of the summary, and their results must be mentioned in the results part of the summary as well. 2- Tannins are not antioxidants. Therefore, the results of estimation of tannins should be transferred from Table 3 to Table 2.	
Optional/General comments	I would like to express my admiration for the researcher's method of analyzing data statistically. It was a scientific and accurate method that deserves to be commended.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
