PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> There is a mixed up in the use of "incubation period" and "storage period". The study is looking at the impact of storage period and not impact of incubation period. Also the use of "size", "weight" and "class" to qualify the egg should be looked into to achieve consistency. The author did not provide information on how the eggs were collected in the Materials and Methods. Whether the eggs were collected in batches in which case incubation could have also been done in batches too, or in a single day and incubated simultaneously at the 0th, 3rd and 6th day of storage. 	
Minor REVISION comments	<ul style="list-style-type: none"> The Author did not state the statistical software that was used to analyze the data or was the analysis done manually. Also the author did not talk about regression model of any Trend Line equation as reported in the Results and Discussion. 	
Optional/General comments	The work is a very good one. The results of which will assist farmers and operators of hatcheries on the best time of storage of egg for optimal profitability.
