

Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_77170
Title of the Manuscript:	Structure-property relationship of flavonoids as potential green inhibitors for oilfield scales: a mini-review
Type of the Article	Minireview Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article on the use of flavonoids as potential green inhibitors for oilfield scales is an interesting article. It is well written in proper English with no spelling mistakes. The two principal conclusions are well illustrated throughout the article. These conclusions are: 1. Sequestration of metal cations is a reliable technique for the inhibition of oilfield scales, and 2. Natural products, especially flavonoids are potential green scale inhibitors due to their proven high metal binding capacity, non-toxicity, and biodegradability.	
Minor REVISION comments	I am returning the original article, with 15 sets of words underlined in yellow throughout the article, since in those places one or two spaces are missing between the words that make up the set of underlined words.	
Optional/General comments	After the word space problem is corrected, I recommend that the article be published.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
