

Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_77487
Title of the Manuscript:	MODELLING OF SOIL PROFILE POLLUTANT YIELD ON SLAUGHTERHOUSE WASTES DEPOSITED LAND.
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	In the presented study authors did a great job and the MS is novel in term of modelling of soil profile pollutants due to slaughterhouse. The authors written all the portions (abstract, introduction, result and discussion) of MS in very well manners. Although, the authors has lot of data sets and figure, so the result and discussion portion could be more explored to better understanding. Also, need to add some more recent references subjected to this MS.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
