

Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_77656
Title of the Manuscript:	Effect of locally available Wheat Straw Ash in developing high strength concrete
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The manuscript properly presented the research carried out by the authors.</p> <p>In section 3.1, the results of compression and tension tests shows almost similar results. Reviewer would like to suggest, It will be better if author consider more number of specimen to form proper trend in the experiment results.</p> <p>Fourier transform infrared spectroscopy testing suggest the shift in peak values as shown in Figure 8. Can author comment on why sharp peak of WSA 10 observed over that of WSA 20?</p>	
Optional/General comments	<p>Author should check the manuscript thoroughly for grammar. Many errors in the sentence forming can be observed in Introduction section.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
