

## Review Form 1.6

Journal Name:	<a href="#">Journal of Engineering Research and Reports</a>
Manuscript Number:	Ms_JERR_83566
Title of the Manuscript:	Indirect Vector Control of Squirrel-Cage Induction Generator
Type of the Article	Method Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljerr.com/index.php/JERR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The paper seems interesting. There are few points that need to be addressed in this paper. The research gap should be added. Lot of work has been done on the control of induction motor. Please add more citations and research paper so that research gap would look mature. Indirect vector control's flow chart should be added. More explanation should be added to elaborate simulation results.</p>	
<b>Minor</b> REVISION comments	<p>Paper must have correct format and should be error free.</p>	
<b>Optional/General</b> comments	<p>Paper is interesting but above mentioned points should be considered for improvement.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
