

Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_89345
Title of the Manuscript:	Equation for Energy Dissipation for Spillways with equal Step Heights and Widths of 0.305m
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> ✓ Method, Finding, and Novelty of the research are not clearly explained ✓ Writing style is not similar (font size and type) ✓ If the aim is to provide design engineers with new models for estimating energy dissipation your titles need modification. 	
Minor REVISION comments	<ul style="list-style-type: none"> ✓ Collect all figures with explanations in materials and methods from the introduction. ✓ In part of your paper, you compare two systems present and existing ones but not clearly explained. ✓ Reference use current reference. 	
Optional/General comments	Make clear the finding and novelty of your study. Follow journal writing style and all guidelines.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
